

Cameron Area School Readiness Efforts Pay Off for Children and Teachers

Texas School Ready (TSR) is an innovative program that aims to increase children’s school readiness through five evidence-driven components: research-based curriculum, technology-driven child progress monitoring, facilitated teacher professional development, ongoing teacher coaching, and sustainability. The model has been praised nationally by early education leaders such as Robert Pianta, Bruce Fuller, and Sara Mead to name a few.

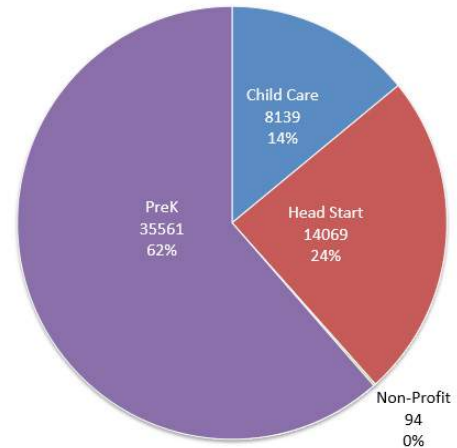

TSR focuses on teacher behavior in the classroom, the quality of instruction, and importance of the environment early education takes place in. As such, the Texas School Ready project ensures that the vehicles that have the greatest potential for positive impact on child outcomes (teachers and environment) receive attention and proper resources in order to improve the quality of early childhood programs.

Since the beginning of the project in 2003, TSR has partnered with sites across Texas to implement the program with preschool teachers. In fact, TSR has served approximately 57,800 children and 3,400 teachers in a variety of settings in the Rio Grande Valley since 2008. We are proud to continue working with Workforce Solutions Cameron as a TSR Lead Agent for 2015-2017!

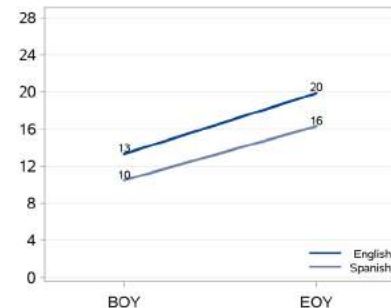

The graphs on this page show data from Workforce Solutions Cameron TSR classrooms last year. Children show steady growth in key predictors of literacy development like identifying letters in the alphabet and understanding phonological patterns like rhymes and alliteration. These are important school readiness skills that help children be more successful when they get to kindergarten.

As illustrated in the charts to the right, children in Workforce Solutions Cameron TSR classrooms show considerable gains in skill development in both English and Spanish from the beginning of the school year (BOY) to the end of the school year (EOY)!

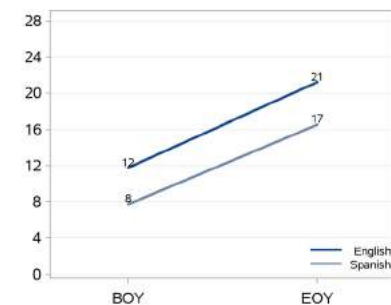

Rio Grande Valley Students Served in TSR Since 2008

Student Gains in Phonological Awareness Workforce Solutions Cameron, 2015-2016

Student Gains in Letter Knowledge Workforce Solutions Cameron, 2015-2016

Cameron Area School Readiness Efforts Pay Off for Children and Teachers

At the heart of TSR is the desire to increase teachers' use of evidence-based practices and improve the quality of teacher-child interactions. Using cutting-edge techniques like data-driven coaching in the classroom, TSR is able to move outcomes in a positive direction. PreK teachers in Workforce Solutions Cameron have shown dramatic changes after just a few months of participation in the project. Improvements have been documented across all content areas related to key early childhood indicators!

Teachers who have participated in TSR have expressed the tremendous impact the project has had on their classroom instruction and professional growth. Andrea Garza, a teacher at Casa Grande Head Start in Harlingen, spoke about her experiences:

“The project has provided many authentic ideas to teach children in their preschool years. The program has helped me gain great use of knowledge in teaching children who all benefit from the activities provided in each model. I’m greatly inspired with this program and everything that is included in this project, because I have seen great outcomes and benefits before children begin to transition to the next level. As a teacher, I would highly recommend educators to follow this program for it is successful as an educator to teach and for a student to learn during their primary years.”

Teacher Gains in the Use of Instructional Strategies
Workforce Solutions Cameron, 2015-2016

MTH: Math, PA: Phonological Awareness, PLE: Print/Letter & Early Reading, RA: Read Alouds, WE: Written Expression

As illustrated in the graph above, Workforce Solutions Cameron TSR teachers increase the quality of their practices from the beginning of the school year (BOY) to the middle of the school year (MOY)!
